

## Safety Valve Specification

If it a spare parts of Interves supplied rupture disc

Please, communicate the lot number	
------------------------------------	--

**If it is a new installation**

Safety Valve	
Quantity	
DN(size): If the size is not known we can forward a flow calculation, but are required the A) flow rate: B) if the media is Gas --> Molecular weight: or Liquid --> Density:     &     Viscosity:	
Set pressure	
Set temperature	
Valve Material	
Flange Rating "PN , Cl, etc"	
Flange Type "EN, ANSI, JIG etc"	
Media Name	
Media and state (gas, steam or liquid)	
Vacuum (if any)	
Back pressure (if any)	

Option	
Protective coating "if reuested"	
Alarm sensor	
<b>Note:</b>
